

## OCEAN SCIENCE CONSULTING LIMITED (OSC)

### Environmental Policy Statement

Ocean Science Consulting (OSC) is privately-owned international technology-focused marine science company involved principally in providing marine mammal detection and risk mitigation commercial services worldwide. The company's core values are a comprehensive knowledge base, a philosophy of staff attaining maximum potential through continuous learning, development, and improvement, a dynamic culture for determination and innovation, an ethos of quality and not quantity, attention to detail, a goal for zero incidents in the workplace, and investment in technical R&D.

OSC's Directors and personnel acknowledge that they have a responsibility to the environment, and are committed to the continual improvement of the Management System through the setting of annual objectives. The company strives to protect the environment through reducing the risk of pollution and ensure that it fulfils all compliance obligations and other requirements to which it subscribes.

OSC's environmental management system is certified to ISO 14001:2015 standards. The specific aim of this policy is to minimise any impact on the environment, so all of OSC's stakeholders will attempt to measure, monitor, and assess their respective environmental performance, and that of the company as a whole, and suggest corporate improvements where possible, in terms of the following goals:

1. Recycle waste;
2. Utilise energy efficient products;
3. Educate colleagues with adequate advice and training to ensure they behave in an environmentally responsible manner; and,
4. Promote commitment of environmental responsibility by making this policy available to all stakeholders and clients upon request.

This policy is subject to regular reviews.
